

RMT Acupuncture Certificate Program

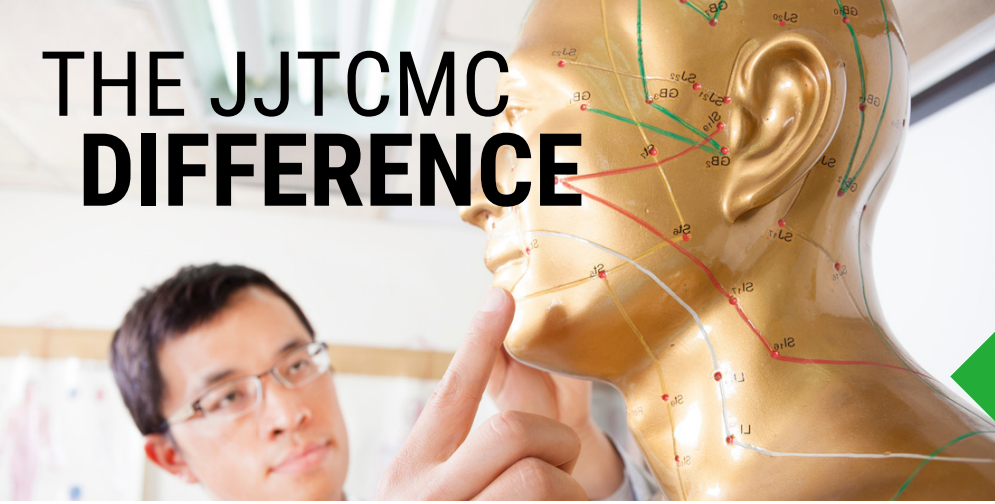

John and Jenny
Traditional Chinese Medicine
School

THINKING OF TAKING THE LEAP?

This program was designed specifically for Registered Massage therapists who wish to expand their practice to include acupuncture. Through a 300-hour systematic study of theory coupled with hands-on training techniques, this program enables students to provide enhanced treatment to issues commonly seen in a massage clinic, such as pain, inflammation and motor-neural issues, by teaching them how to apply acupuncture and moxibustion techniques safely and effectively.

THE JJTCMC DIFFERENCE

SEE MORE. LEARN MORE.

We offer clinical and classroom training in all areas of practice that can be found in a Chinese TCM hospital:

Internal Medicine, Gynecology, External Medicine, Pediatrics, Orthopedics, Traumatology, Dermatology, Otorhinolaryngology and Ophthalmology

GO BEYOND PAIN MANAGEMENT

During clinical practice, we guarantee that students will gain exposure to an extensive range of illnesses, for example:

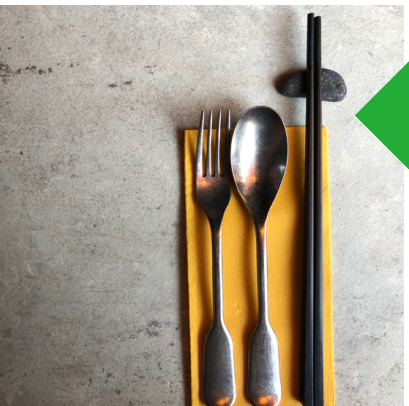

paralysis, tumors, cancer, stroke, autism, COPD, cardiovascular diseases, infertility, PCOS, epilepsy, ADHD, rheumatoid arthritis, depression, angina, cerebral palsy, chronic gastritis, psoriasis, infantile eczema, trigeminal myalgia, autoimmune diseases

WHERE EAST TRULY MEETS WEST

A key aspect of our mandate is to provide authentic Chinese university quality education.

As a result, we are proud to be the only Canadian College recognized by and affiliated with China's best TCM university, Nanjing University of Chinese Medicine.

FLEXIBILITY IS IN OUR NATURE

Course auditing at no cost until graduation means you can re-attend completed courses as a refresher.

We welcome long-distance learners to remotely attend theoretical evening lectures through our E-Learning platform.

OUR STUDENTS SUCCEED

Our official pass rate for the 2023 April TCM and Acupuncture computerized Pan-Canadian MCQ and CCS Exams is **100%**.

(And we're pretty proud.)

WE'RE HERE FOR YOU. ALWAYS.

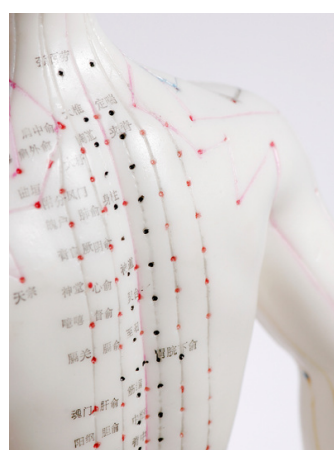

When our graduates encounter tough cases in their practice, they know they can drop us a line or give us a call so we can share ideas and provide guidance.

We also invite renowned professors and TCM masters from China to deliver onsite seminars ranging from the classics through to the state-of-the-art in clinic.

COURSE LIST

1. Science of Acupoints
2. Science of Acupuncture & Moxibustion Techniques: Supplementary Techniques
3. Science of Channels and Collaterals
4. Science of Acupuncture & Moxibustion Techniques: Needling and Moxibustion
5. Acupuncture Treatment: Orthopedics
6. Clinical and Practical Training

WHO WE ARE

OUR FOUNDER AND PRINCIPAL

PROFESSOR JOHN J.H. LIU

Masters in Acupuncture; PhD in TCM Oncology

Prof. Liu pursued his studies successively from Nanjing, Shanghai and Zhejiang Universities of Chinese Medicine before coming to Canada. He has more than 30 years of experience in clinical practice, teaching and research in China and Canada. He is immensely adored and respected by his patients and students for his passion and sense of responsibility for the development of Traditional Chinese Medicine.

He developed the unique Acupuncture and Chinese Medicine Combined Target Treatment method for the treatment of tumors and cancers. His research was funded by the highest scientific funding association in China - The Chinese National Science Foundation.

John acts as a guest professor, teaching classical TCM literature for Nanjing University of Chinese Medicine. In addition to publishing more than sixty articles in peer-reviewed research journals on the topic of Acupuncture and Chinese Medicine, he has also contributed to many books on the subject.

OUR TEAM

- All professors of Acupuncture and TCM have either passed the Pan-Canadian Examination or are long registered practitioners with the CTCMPAO.
- All professors are proficient in English and conduct their classes entirely in English.
- Senior professors (50% of faculty members)
 - A minimum of 20 years of clinical experience
 - Educated from the most formal and traditional TCM universities in China
 - Previously TCM doctors in Chinese Hospitals or professors at Chinese Medicine Universities
- Junior professors (50% of faculty members)
 - Either in pursuit of or have completed post-graduate degrees in the courses they teach

OUR HISTORY

- **2006** - Founding of JJTCMC, specialized in providing students with hands-on training
- **2009** - Expanded curriculum to include complete Acupuncture and TCM diploma programs
- **2013** - Diploma programs refined to meet all requirements of the CTCMPAO regulating college (established in April); launched specialized Pan-Canadian Registration Examination preparatory courses
- **2016** - Moved to the current 8,000 sq. ft. facility and became the largest TCM school in Ontario
